

NX-1820E-EUR

NetworX Touch Screen keypad

General

The NX-1820E-EUR is an intuitive graphical touch screen interface for users of the NetworX security system family. Offering simple fingertip control of the security system with a clear 3.5" touch screen with easy to understand graphics.

Customization

It can be customized for each location when it is installed. This includes custom naming of zones, partitions, users and output names. Users can even leave messages for other users via the internal message centre. With the NX-1820E-EUR, security is just a touch away.

Quick access

The menus on the Touch Screen are organized in a clean way and allow single touch operations. Certain options can be allowed to single touch or not, like the chime function which can be removed from the first screen, depending on the settings.
